HAMLIN, JONES COUNTY, TEXAS, FRIDAY, SEPTEMBER 24, 1937.

NUMBER 47.

Methodist Meeting Going Fine With An Unusual Minister, Leading

How often have you heard that the present-day preachers do not preach like the old time men did. That's all a mistake. Over at the Methodist Church is a minister of the old school, yet he is as modern as the most modern.

What the Herald says about the meeting and the preacher, the Rev. Robert L. Butler, is on our own hook. The pastor, Rev. Hanks has us believe that he is too busy to make his own publicity (which we always try to get the local preachers to be responsible for,) but for this one time, we are helping out. And there may be more than one reason for this "help out."

You see, for several weeks, Methodist have been telling it that the only thing one could have on the visiting minister is that he is from Eastland County, and grew up with Rev. Henry Littleton, pastor of the Hamlin Baptist Church. That's something to think about. From the very start, last Sunday, one could hardly tell what kind of meeting, Rev. Butler was carrying on—there has been about as many Baptist as Methodist—looked like the Baptist were out to hear something on their pastor, or maybe the Methodist are trying to listen in on something about Littleton. So this is the setting for a good meeting—Rev. Butler gets them on all sides. He refers to his boyhood days and the Littletons, often in his sermons, and that is natural. A great preacher can not get away from his childhood and young manhood haunts. So far nobody has got anything except admiration for either of the ministers. We all think how wonderful it is that out of two great families, from the post oaks, midst the privations and drab days, such a transformation could come over two, three, four and maybe five or six "rough neck boys" to bring them out into the wide world of people of better opportunities and make of them earnest preachers, the greatest job of any man is preaching the gospel.

This man Butler is not located in a great city. He is one of the few Methodist pastors who stays far over the usual time of four years. His home is in the edge of New Mexico, at Texaco-Farwell. His service, so honest, so earnest, so plain, so unvarnished, causes folks to want him to come and hold meetings. He has traveled far. Wednesday night his talk on Palestine made a great impression on each and every one in the crowded house.

When Rev. Butler starts his sermons, he reminds us of a busy farmer or workman who begins a task. Square from the shoulder, no frills, and fads to hinder the listeners—the Bible is his material and with his rich life of struggle and toil he has a language to make plain each and every point.

No Sir—e-e you can't tell whether Butler is a Methodist, Presbyterian or maybe Baptist—you don't think of which, or what. Nobody thinks this minister is handsome, except maybe his wife, and our Rev. Littleton. This is because they see the

heart of the man as others cannot. After all, there is something in the ruddy faces of the minister boys who grew up in West Texas, years ago on the rough and tumble of the pioneer atmosphere, that appeals to a church audience. This is how Rev. Robert L. Butler shows up to US.

ROBERT L. BUTLER

Rev. Littleton says "Bob" and that is what the visitor likes to hear. So if by the time the Herald reaches you and you have not heard this man, go listen in—he is a big hearted fellow, reared by Methodist parents of the old time religion in a Baptist community. He married a Baptist girl, but with all that he is a genuine Methodist and preaches the old time Bible like a Baptist.

Guess we have said enough to impress you that if you want to go to a real religious service and like this, go down to the Methodist church while Butler is there. He will go elsewhere after Sunday.

In the Herald's list of college students last week we failed to learn that Miss Mary Lou Bailey, daughter of Mr. and Mrs. Ed Bailey, had entered the State Teachers College at Denton. Should there be others in the Hamlin area who have not been mentioned in the Herald—tell us—college days are the greatest days of any young persons life, and should be emphasized in the "home-town" press.

ARM BROKEN AT GIN

W. H. Hall is going about this week with his left arm in a sling, after being injured last Friday at the Pioneer Gin. He was dressing or adjusting a fast belt and it jerked his arm around in such a manner that it was broken at the wrist, and bruised at the elbow. He is getting along fine, however.

SAILING THE HIGH SEAS

Last Saturday Dr. and Mrs. J. Turner Bynum sailed from Galveston for a 21 days cruise of the seas, probably to Cuba, Portirico and maybe to Panama.

LES J. TINDAL KILLED BY A TRUCK TRAILER

Another Hamlin man lost his life in a tragic manner since last week. Leslie J. Tindal, age 30 years and 29 days died in the edge of Breckenridge Sunday night, Sept. 19, at about 9:30, while en-route to a hospital, after being picked up at the road side at Metcalf Gap, east of Caddo.

Tindal had been hauling seed to Fort Worth and was returning Sunday with another load, in company with Camp Young. Otis Young was in another truck that followed Tindal and Camp a short distance behind. At Caddo, Tindal told Camp he was very sleepy and he would crawl up on the trailer load and sleep until they got to Fort Worth, while Camp drove the truck. When they began to ascend the grade to the "Gap" the coupling evidently came out and caused the trailer tongue to dip and evidently the jerk or twist tipped the load over and down the embankment where it stopped upright, and empty. Tindal had fallen and his back is reported as being broken.

The Young Bros. started for Breckenridge hospital with the injured man and they say that Tindal apparently was conscious part of the time, till just before reaching the hospital.

The Barrow Company went for the body.

Leslie Tindal had made a host of friends in this section of the country having lived near Boyd Chapel, Neinda and his residence was in South Hamlin at the time of his death. The great number of sympathizing friends at the funeral bore testimony of his standing among his people.

He was born near Hamlin on Aug. 20, 1907 to Mr. and Mrs. J. M. Tindal. He was married to Generah Long on August 20, 1932. To this union was born one daughter, Rose Laverne, who is two years of age. Besides his wife and daughter, Les is mourned by his aged father, three brothers, Aubrey, of Hamlin, Sam of Neinda and Carl of Utah; four sisters, Mrs. Dick Jackson and Mrs. Doyle Ivey of Hamlin, Mrs. Grover Maynard of Carlton and Mrs. Richard Pyron of Dallas.

Less had been a devoted member of the Baptist Church of Boyd Chapel since 1928. He was a faithful companion. A loving father and a friend to all. Everyone who knew him loved him and his business associates knew him to be square and honest in all their dealings with him.

Funeral services were conducted at the Baptist Church of Neinda on Tuesday afternoon, Sept 21, by Rev. Thornton in the presence of a very unusually large number of saddened relatives and friends.

The number of floral offerings helped to express the love and esteem held in the hearts of friends and loved ones.

The pallbearers who were friends and business associates of Less were Clarence, Otis and Paul Young, Dorsey Bingham, Jim Frank Tollison, Clinton Bristow, Rod Brown and Mr. Christopher.

To his dear wife, daughter and other relatives he has left a vacant place that cannot be filled, but you must be comforted by the thought that he is not dead but sleeping just over the river in the City of God's Kingdom. You are heartbroken over his going, but be not cast down, for he still lives and we are sure if he could speak, he would say, "weep not but rejoice."

(The Herald is indebted to Mrs. Earl Brown for a portion of the above sketch.)

Mrs. McCain who has been visiting her daughter, Mrs. Tom Williams and family returned Wednesday to her home in Dallas.

Clayton Bond, son of Mr. and Mrs. Mark Bond was taken to the Stamford Sanitarium this week for an appendix operation.

PRIMITIVE BAPTIST WILL PREACH AT NAZARENE CHURCH

Elder Jake Richardson, a Primitive Baptist preacher, of Robert Lee, Texas, will preach at the Hamlin Nazarene Church, Friday night at 7:30 o'clock.

McCAULEY MATTERS

By JOHN P. HARDESTY

Rev. J. R. Bateman, assisted by Rev. Kendall, of Tuscola, closed a revival at Boyd Chapel, Sunday night. There were four additions to the church.

Mrs. Keeton Saxton and daughter, Dorothy, of Kewana, Miss., accompanied by Mr. and Mrs. M. P. May of Hamlin were guests Sunday of the McCollums, Louis Rectors and Woods families. They also attended services at the Baptist Church for the morning hour. Mrs. Saxton is a niece of Mrs. May and Mrs. Rector.

Misses Pauline and Mary Ellen Bateman have gone to resume their duties as teachers in the schools at Terrell and M. E. Orphan's Home, Waco. They are daughters of Rev. and Mrs. J. R. Bateman.

Mrs. M. J. Bentley entertained her Sunday School Class at her home Saturday night. Parlor games and refreshments were enjoyed by the following guests: Mr. and Mrs. Jack Johnson, Mr. and Mrs. Edwin Johnson, Mr. and Mrs. Raymond Hughes, Mr. and Mrs. Leon Rogers, Mr. and Mrs. J. P. Hardesty, Lucius and Lena Falkenberry, Ruby Rhoton, Emma Hopkins and Alline, Nola, Katy and Corene Atkins.

Joe Miers had a narrow escape from serious injury, Monday when his clothing caught in the machinery of the Miers gin and was entirely torn from his body. Painful bruises were the result, but Joe went back to his job after first aid had been administered at the Hamlin Hospital.

The family of our rural carrier, Mr. Hines has moved back to their former home in Rule. Mr. Hines is boarding in the Pickron home.

Mrs. Homer Hutto and boys, Homer Jr., and James Hardesty are spending some days in the home of Mrs. Hutto's parents, the Hardestys.

Mr. and Mrs. George Miller and baby R. Lemuel, age 1 year, of Ft. Worth, came up Wednesday, to visit their parents, Mr. and Mrs. R. L. Dean. They left Thursday for San Angelo to visit Mr. and Mrs. Lem Miller.

Paul Johnson returned to Alpine, Tuesday of last week to begin his senior year in Sul Ross College.

The Herald is going to Miss Florene Maberry at 300 South Henderson, Ft. Worth. Miss Maberry is taking a course in Beauty Culture. The Herald has a lot of good news for her from her home in McCauley.

John W. Yopp, of Rotan, formerly of the Hitson community called Monday morning at the New Herald Building. He liked it so well he ordered the Herald to Rotan, the new oil town, in Fisher County. Thank you John.

This week the Herald is going to our old friend J. T. Conner at Box 456, Plainview, Texas, compliment of his son, Tom B. Conner. J. T. is over 75 years and the past two months has been in ill health. However he is sitting up some these days. T. J. Conner shoveled "Orient coal" from cars to the chutes for 10 years in Hamlin. He knows all the old-timers here and the Herald will give him lots of company each week. Hope he will get able to visit Hamlin soon.

Mr. and Mrs. B. Hassen went to Haskell, Tuesday to visit Mr. and Mrs. S. Hassen who have just returned from a trip to Europe.

SPECIAL WATER NOTICE

The consumption of city water has been increasing for the past few days and we feel that we are not getting the full co-operation of the citizens in conserving our water supply, if the consumption continues to increase, we will be forced to cut the water off from the mains except for a short period each day. If our citizens will co-operate and be as sparing as possible with the water, we can continue to leave the mains on at all times for a longer period. Your wholehearted co-operation will enable us to leave the water on as it is now.

At a Council meeting, Tuesday night, a resolution was passed prohibiting the WASHING of CARS, at any time or place with City water. If you know of anyone violating any of the water rules and regulations, please report to the water department.

Respectfully,
CITY COUNCIL.

SPEAKER OF THE HOUSE

BOB CALVERT

Austin, Sept. 14.—Bob Calvert of Hillsboro, speaker of the house of representatives, today said definitely that he will announce for the office of attorney general of the state of Texas.

"I regard the office of attorney general as the key position of the state government," Calvert said. "It should be filled by a man, free from entangling alliances, who can serve the interests of the great majority of the people of Texas faithfully and conscientiously."

The man who occupies the office, Calvert said, should not be "a stooge for the major oil companies" or other special interests, dominated by his connections or retainers.

Such a man, Calvert asserted, would be unable to represent the people of the state of Texas honestly when called upon to bring suits against his former clients.

"My experiences in a county law office and in the legislature have fitted me for the office of attorney general," Calvert declared. "I know that I can fill the office capably and fairly."

The young speaker graduated from high school at the state orphan's home at Corsicana, then worked his way through the University of Texas law school.

He is serving his third term in the legislature from the 60th district, Hill and Navarro counties.

Calvert said his formal announcement for the office of attorney general will be made at a later date.

FARM NOTES

FLOYD LYNCH,
JONES COUNTY AGENT

A trench silo with twenty-ton capacity was dug by C. J. Pace of the Truby Community.

This trench is being filled with feterita, which has been headed. A number of work stock and milk cows will have access to this silage this winter, which would have been wasted otherwise, as far as feed value, had it not been stored in the form of canned feed, states Floyd Lynch, Jones County Agent.

This silo was dug with two mares and a small fresno, by Pace in one and one half days.

Below is copy of wire from I. W. Duggan, Acting Director of the Southern Division to Mr. E. N. Holmgren:

"Buyers' Receipts for Cotton from 1937 crop sold prior to September Fifteenth must be mailed or delivered in person to the County Officer not later than September 30th. Buyers receipts for cotton sold after Sept. 15th must be so filed not later than fifteen days after date of sale. Pending receipt of government forms producers should secure original sales receipt from buyers showing date of sale, name and address of producer, number and gross weight of bales and signature and address of buyer."

ANOTHER NEW CAFE

THE HIGHWAY CAFE

The Highway Cafe, under the managementship of Sid Johnson, has recently finished a new building on South Central Avenue, and is now open for service.

Mr. Johnson has a nice ad in this issue of the Herald to which we call our readers attention.

Little Donald Richard Rowland, age 5 years, son of Mr. and Mrs. Brad Rowland was stricken with some peculiar illness and after several days of investigation in the Hamlin Hospital the physicians pronounced the case a slight form of paralysis. The little fellow is likely to overcome the effects in a year or two.

Mrs. Coleman Gibbons, of Fort Worth, spent the week-end with her parents, Mr. and Mrs. J. C. Greenway.

HAMLIN, TEXAS

Crippled Children's Clinic At Wichita Falls Oct. 8

Dr. W. B. Carrell, head of the Crippled Children's Hospital in Dallas, announced Saturday afternoon that he would conduct a free clinic in Wichita Falls on October 8.

This clinic will be held in the First Methodist church, under the auspices of the Wichita Valley Scottish Rite association and the Maskat Shrine Temple. S. H. Fagadau is president of the first organization and Kindel Paulk heads the Shrine Temple.

SECOND FREE CLINIC

This will be the second free clinic for crippled children held in Wichita Falls, the first being held in this city in 1935, when 359 children were examined. This number set a world's record for medical clinics.

Dr. Carrell will be assisted by Doctors Girard and Driver, also associated with the Scottish Rite hospital at Dallas, and Miss Annie Laurie Little, superintendent of the hospital.

Members of the Wichita County Medical association and the Wichita Falls Graduate Nurses association will also be on hand to assist at the clinic.

BROWN TO BE HERE

An important feature will be the presence of J. J. Brown of the State Board of Education. Brown is head of the rehabilitation work for this department. He will make case notes and begin work on the education of the crippled children at the time of the clinic, instead of waiting until after the cure is effected.

Sidney A. Gaines, head of the Wichita Falls district for crippled children's work in the Scottish Rite Masonic body, said Saturday that Albert Ellis would be head of the committee in charge of publicity. This committee will see that all Masonic organization of West Texas and the Panhandle is informed of the free clinic, and all crippled children, regardless of creed, color, or race, are contacted. When necessary, the local Masonic Lodges will provide transportation to Wichita Falls for the children, Gaines said.

Oral Jones was named committee head for the preparation of the Methodist church building to receive the children and see that ample facilities are provided for the doctor's work.

TO RECEIVE TREATMENT

After the clinic in Wichita Falls, Gaines pointed out, the children who can be cured are to be taken to Dallas by Masonic lodges in their own towns and cities. The incurable cases will be eliminated in Wichita Falls, providing more cases.

Early examination was stressed by the doctors, as cases are more easily treated soon after the accident or disease that cripples the limbs, than when the case is allowed to become several years old.

Several new cases of crippled children have been reported in this district in recent months Gaines said, and these children should be brought to the clinic at all costs.

CORRECTION:—Last week the Herald had it that Miss Lois Anderson had entered the Woman's College at Denton as a Freshman and as a correction we should have said Lois entered as a Sophomore, after completing her first year at McMurry last year.

HEALTH NOTES

(By Geo. W. Cox, M. D., State Health Officer.)

Austin, Texas.—During the past year 786 persons died of appendicitis in Texas, according to Vital Statistics compilations of the State Department of Health. Many of those deaths might have been prevented had the patient been more aware of the disease and its symptoms.

There are two forms of appendicitis, acute and chronic. The form that appears suddenly, with great pain and sickness is acute. Chronic appendicitis may be extended over a long period of time and consists of slight attacks at intervals, but, at some time, there will usually occur an attack worse than any before and the disease may then become serious.

"In the presence of abdominal pain, give nothing by mouth. Never give laxatives. Apply an ice pack. Call your family physician. Abdominal pain which persists over a period of six hours is usually serious," advises State Health Officer Geo. W. Cox.

Hospital records show that the above advice has reduced appendicitis deaths 75 per cent. When otherwise healthy people are operated upon soon after the beginning of the "pain in the stomach" caused by appendicitis, little danger is experienced, but the surgeon's work is made more difficult and the patient's chance of recovery considerably lessened when there is a long delay in seeking medical help, and especially if a cathartic has been given.

How to prevent appendicitis? Keep the body in perfect health as long as possible. Watch your teeth, your tonsils, any place where an infection may occur. Get plenty of good food, plenty of sleep, plenty of exercise. Have a thorough medical examination at least once a year and have your teeth examined and cleaned by a dentist at least once every six months. This kind of watchfulness will not only help you to avoid appendicitis, it will help you to avoid many other illnesses as well.

SOUTHERN PINE GOES TO NEW YORK FAIR

NEW YORK (Special).—Southern yellow pine from the Eastern Shore, Maryland, and from points in Delaware, Virginia and North Carolina is already going into foundations in the central area of the New York World's Fair of 1939. Grover Whalen, President of the Fair Corporation, has just announced the purchase of 430 sticks of pine piling, in lengths up to 80 feet, from Nichols Brothers, of 90 West Street, Manhattan, and Norfolk, Virginia. Shipments of this lot are originating at Frankfort, Delaware, Preston, Maryland, and Melfa and Cheriton, Virginia. An order for piling of similar size is being filled at points in North Carolina.

The pine sticks are being driven into the ash-meadow fill of the 1216½-acre exposition site where they will serve as part of the foundations for bridge abutments near the Theme Centre and amusement areas of the Fair.

Universal suffrage, without universal education, would be a curse. —H. L. Wayland.

PACIFIC FIR GOES TO NEW YORK FAIR

NEW YORK (Special).—"Good old Douglas fir" from the Pacific Northwest will provide the foundations for the most spectacular of wonders at the New York World's Fair of 1939.

This was learned when the Fair Corporation offices in the Empire State building announced the purchase of more than \$100,000 worth of fir pilings from the National Pole Treating Company. This particular lot of fir sticks will be driven into the ash fill of the 1216½-acre exposition site to guarantee the support of the two unique structures forming the Theme Centre of the "Nation's Fair." These are the 200-foot Perisphere, a globe seemingly supported on the waters of fountains, and the Trylon, a 700-foot triangular needle or beacon and broadcasting tower.

Shipments of the 1260 sticks, 95 to 99 feet in length, are taking place this month, after creosote treatment has been accorded them either at the National Pole and Treating Company's plant at Hill-yard, Washington, or at the Minneapolis yards.

This is the Fair's second purchase of fir from Northwest sources. An order for 770 sticks of similar length was filled early this year from Oregon cuttings. This earlier shipment of piling supports the Fair's \$900,000 Administration Building already erected on the grounds.

Illinois Fence for New York Fair

NEW YORK (Special).—Illinois-made fencing is being shipped to the New York World's Fair for enclosure of the 389.8 acres comprising the central exhibit area. This was learned when Grover Whalen, President of the Fair Corporation, announced the award of a first fencing contract to the Cyclone Fence Company, whose New York offices are at 370 Lexington Avenue.

Officials of the manufacturing firm announced that its Waukegan plant was shipping the fencing and that installation would start as soon as the first steel reached the 1216½-acre exposition site on Flushing Meadow.

The contract price of the nine-foot steel fence installed, complete with gates and concrete footings at ten-foot centres, as derived from figures submitted by pre-qualified bidders, is \$32,812. About three miles of fence are required to enclose the central exhibit area along three sides and down to the Flushing river.

Immediate enclosure of the tract was made necessary, Mr. Whalen said, by the great and varied construction work that is already taking place on the site two years in advance of the Fair's opening date. The Illinois-made fence will inclose all of the Transportation Zone of the exposition and the area that will be dominated by the two Theme Centre wonders, the Perisphere and Trylon.

BUILDING TESTS WALLS FOR FAIR

NEW YORK (Special).—Although the opening date of the New York World's Fair is still almost two years away, the Fair site already has one building that mystifies all persons who pass that way and one that is of great interest to the contractors and builders of the whole country. The big sign says it is the "test building."

The building can be made to do a lot of things just short of a late dance step. It can be made to twist, heave, buckle, sag or otherwise contort, all at the will of the Fair's engineers. It has a sawed-off tower arrangement on one end. Some sections of its walls are dazzling under the sun and are obviously encrusted with bits of broken glass. Its four walls, in fact, comprise 43 different set-ups of material, supports and surface coatings. When its day is done, it will be made to collapse by the turn of a screw.

The unique building is typical of nothing other than itself, say Fair officials, since it is just a set of walls, upon which to try out the merits of various types of wall coating and stucco treatments.

The durability, appearance and structural peculiarities of walls are of great importance to the Fair, since its 300 buildings will require around 15,000,000 square feet of such enclosures.

The interior of this "wall laboratory" is given over to the Corporation's illumination engineers and their experimentation with new lighting devices.

New York Fair Hall to Feature Radio and Television

NEW YORK (Special).—Radio, television, movies, telephone, telegraph, photography, news and magazine print—all those factors as they relate to communications in American life—will have their own pavilion and ten-acre exhibit zone at the New York World's Fair of 1939, according to an announcement by Grover Whalen, President of the Fair Corporation.

The Hall of Communications will be built this year on the 1216½-acre exposition site within a few minutes ride from mid-town Manhattan. Its location is adjacent to that of the unique Theme Centre structures, which with their "thousand wonders" will dominate the Fair grounds. About the Hall will be grouped ten acres of buildings to be erected by private exhibitors in the communications industry, said Mr. Whalen.

Before the building will be two ultra-marine pylons, 160 feet high and faced with continuous glass lighting fixtures. Features of the structure are a great hall, in which will be placed the focal exhibit summing up the role of communications in the World of Tomorrow, and a glass-walled restaurant opening onto a dining terrace and garden. The total length of the Hall of Communications will be over 400 feet. Its cost is estimated at \$400,000. Numerous other Fair structures are emerging from stages of design. Construction of the exposition, however, will not reach its peak until early next year.

HAMLIN HOSPITAL NOTES

Little Senorita Lupe Rivera, Aspermont was admitted to the hospital, Sept. 17th, as a medical patient. Her condition is reported better.

Teddy Russell underwent minor surgery Wednesday afternoon.

Mr. and Mrs. Ellis Eiven, McCaulley are the happy parents of a daughter, born Sept. 18. Mrs. Eivens and little Sherry Maude were released from the hospital, Sept. 21.

Emory Blane Williams was dismissed from the hospital Sept. 19.

Little Miss Chloue Miller, daughter of Mr. and Mrs. Jim Miller, underwent major surgery Sunday night, Sept. 19, and her condition is reported good.

Mrs. S. H. Locke, Hamlin underwent major surgery, Tuesday, 21st, her condition is reported good.

Miss Wanda Sebastain, Hamlin High School student, underwent major surgery Tuesday night and her condition is good. Miss Sebastain is the daughter of Mr. and Mrs. Loyd Sebastain.

Mrs. Tommie Conner of Abilene has accepted a position as night Supervisor in the Hamlin Hospital.

Mrs. Conner is a graduate of the Hendrick Memorial Hospital. We are happy to have Mr. and Mrs. Conner to make Hamlin their home.

Mrs. J. D. Smith, Hamlin, who has been under observation these last few days, was released from the hospital Sept. 15th.

B. B. Phyllis was admitted to the hospital Sept. 16th for treatment and was released Sept. 19th.

Curiosa Americana

By Elmo Scott Watson

Baby-Swapping

THE "baby-swapping" incident in Owen Wister's "The Virginian" was a figment of the novelist's imagination. It was based on fact, even though it took place in Kansas instead of Wyoming.

In October, 1867, Capt. Perry Hutchinson finished erecting a flour mill on the Big Blue river, only a short distance from the Oregon Trail, near the present city of Maryville, Kan. Then he and his wife decided to hold a "house warming" and invite settlers from all parts of the county to a dance to be held on the lower floor of the mill. An upper room was arranged for a banquet and an adjoining room, also upstairs, was fixed for the mothers who brought their babies.

It was into this room that three young daredevils of the community—Dave Walker, Cafe Osborne and Andy Travelute—stole quietly while the parents of the youngsters were enjoying their dance below and mixed up the babies, just as Wister has described the incident in his book. And it was to the mill early the next morning that the indignant fathers and mothers came to "swap offspring" and get back their own.

How did the incident become transplanted to Wyoming? Two of the indignant parents were Dr. and Mrs. J. J. Crawford. A brother of Doctor Crawford was Capt. Jack Crawford, the famous "Poet-Scout," who was a friend of Wister's and told him the tale. At a dance in the Bear Creek country, which Wister attended one night while he was in Wyoming, he remembered the yarn. Result: it was woven into his story and attributed to his fictional heroes, "the Virginian" and "Lin McLean."

"I PLANTED A FLOWER"

Die when I may, I want it said of me by those who knew me best that I always plucked a thistle and planted a flower wherever I thought a flower would grow.—Lincoln.

Less Monthly Discomfort

Many women, who formerly suffered from a weak, run-down condition as a result of poor assimilation of food, say they benefited by taking CARDUI, a special medicine for women. They found it helped to increase the appetite and improve digestion, thereby bringing them more strength from their food.

Naturally there is less discomfort at monthly periods when the system has been strengthened and the various functions restored and regulated.

Cardui, praised by thousands of women, is well worth trying. Of course, if not benefited, consult a physician.

Miss Dorothy Saxon of Toombsuba Miss. has a position as bookkeeper at the Strauss Dry Goods Co.

MAGEE BEAUTY SHOP MODERNIZED

INTERIOR REDECORATED

NEW EQUIPMENT ADDED

A color scheme of beige and brown was used in the interior decorations of the Magee Beauty Shop which has just been completed. The walls are tinted beige with curtains in harmonizing shades. Dressing tables, chairs and other furnishings have been painted beige with brown trimmings. In the reception room, a beautiful new suite of chrome furniture, upholstered in beige and brown leather, has been added. Another nice addition is a manicure table and chairs in matching style and color. Modernistic mirrors throughout the building are another attractive feature.

The Magee Beauty Shop was established nine years ago by Miss Katherine Magee, a home town girl, and from a very small beginning, she has developed her shop into one of the up-to-the-minute shops of our town with a staff of well trained

operators.

Congratulations to Miss Magee on this nice modern improvement.

BOYD CHAPEL CHIRPS

MRS. EARL BROWN, Correspondent

Everyone in our community is busy gathering their cotton, which is opening unusually fast.

Mr. and Mrs. J. P. Cornelius and daughter, Robbie and Mr. F. L. Wood spent the week-end in Fort Worth and attended the State Singing Convention. Mrs. Woods went as far as Breckenridge with them and visited her sister, Mrs. Myles.

Mrs. Eric Crow who has been ill for two weeks is staying with her parents, Mr. and Mrs. Hill, in Abilene.

Mrs. Delmer Estes visited relatives in Lubbock and Post, last week.

Mr. and Mrs. J. D. Rainey of Plasterco spent the week-end with relatives and friends of this community.

Mrs. L. F. Cozzen is attending the bedside of her grandson, little John Ed Killen of Trent, who is suffering from infantile paralysis.

Mr. and Mrs. Garland Austin and children of Abilene spent last week-end with Mr. Otis Young and family.

School will begin here Monday, Sept. 28, and will be taught by Mr. Ross Kemp and Miss Louise Gibson.

SENDS HERALD FOR

BIRTHDAY GIFT

Mrs. Homer Raney is sending the Hamlin Herald to her sister, Mrs. Charles Jeffries, 2024 Ellis Avenue, Fort Worth, Texas, as a birthday gift. Each issue of the Herald will carry news of home and friends to Mrs. Jeffries and will be a gift she can enjoy each week of the year. To her we say, "Happy Birthday."

EXPRESSION OF THANKS

We wish to express our sincere gratitude and appreciation to our neighbors and friends who so kindly helped in saving our furniture and furnishings when our home burned Monday of last week. We appreciate the quick response of our firemen and the fight they made to save our home.

Mr. and Mrs. Creed Smith

BUSY BEES MEET

The Busy Bees quilting club met with Mrs. Watts Fletcher, Tuesday, Sept. 21. A very pleasant day was spent quilting two quilts and chatting with our neighbors.

Those present were Mesdames Harris, Fletcher, Sr., Rainwater, Jenkins, Jones, Burns, Agnew, Joiner, Scott, Pomby, Whitaker, Weaver, Treadwell and the hostess, Mrs. Fletcher, Jr.

We meet with Mrs. Harris on October 5. Anyone that likes to quilt and get acquainted with your neighbors, is cordially invited to meet with us every two weeks.

An enemy may give better advice than a friend.
Some poetry makes a fellow feel prosaic.

To be wrong everytime is a poor way to be consistent.

Remember that no person ever selected his parents.

Some people hate sin because they are too old to enjoy it.

Nothing is more threadbare than a worn out welcome.

The longest hours are those when a young wife waits for an old husband to die.

We visited the Hamlin Herald put out by various members of the Pope family, Saturday and found them in a new building—one of the most modern and conveniently arranged places that we've seen in some spell. Congratulations Pops, and power to you.

—Olive McDougle, the Rambler of THE STAMFORD LEADER.

Our neighbor to the west, the Hamlin Herald, is now located in the new building, where everything is spic and span, so we are told by the popular person who rambles around now and then and writes Ramblings for our paper. Rambler bears the invitation from the Pops, who run the Herald, for us to step over and see them in their new home. Thanks, and we will do that very thing some times soon. Congratulations to the Hamlin Herald.

—STAMFORD LEADER.

TEN COMMANDMENTS

OF HEALTH

The following health rules, reprinted from The Progressive Farmer, are written especially for children as they return to school in September:—

1. Keep the body clean—inside and out.
2. Eat wholesome food.
3. Secure sufficient rest (eight hours sleep at night.)
4. Keep the body erect.
5. Get some daily exercise in the open air.
6. Drink six to eight glasses of water daily.
7. Avoid communicable diseases.
8. Keep a healthy mind.
9. Keep your home as healthful as possible.
10. Know your own physical limitations and live within them. Don't overtax your strength.

SECURITY AND FREEDOM

"If you look out on the world today, you will find that we really have a large measure of freedom. There is a place or two on this earth where economic security is more general and is government-guaranteed—but in those countries, there is no freedom.

"We want both. We want both security and freedom. But we want them both as the product of our own achieving.

"We want security as a product of our own work. We want freedom as a result of our own vigilance. We want neither as a gift."

—George E. Sokolsky.

There are five tests of the evidence of education—correctness and precision in the use of the mother tongue; refined and gentle manners, the result of fixed habit of thought and action; sound standards of appreciation of beauty and of worth, and a character based on those standards; power and habit of reflection; efficiency or the power to do.—Nicholas Murray Butler.

The problem of education is twofold; first to know and then to utter. Everyone who lives any semblance of an inner life thinks more nobly and profoundly than he speaks.—R. L. Stevenson.

Fred—I love her although she is not pretty. She has that indefinable something—

Jim—Oh, yes, I know. My girl's dad has piles of it, too."

B. B. Campbell, of Longview, is a new salesman in the Bryant-Link Dry Goods and Shoe Department. Mr. Campbell married a former Hamlin girl, and evidently she has induced him to come to a good town. Mrs. Campbell will be remembered as Miss Eva Ruth Williamson.

Points and Personalities

by doris pope

—We, along with many others were agreeably surprised and impressed by the splendid showing made by the Hamlin Pied Pipers in last Friday's game with the Winters Blizzards. Although they didn't win a victory as far as the score was concerned, they certainly won a much greater victory, for they won the hearty support and praise of the Hamlin citizens. Those boys put up a real fight and it didn't take long for them to convince the Winters Coach that he wasn't in a "bed of roses". We believe that the Pipers will make a record to be proud of this year because they certainly have begun the season with real determination and "scrappy" playing—so let's do our part on the side-lines.

And while we are on the subject of athletics—did you see the Donkey Baseball game Friday night? It was a riot, and if John Lindsay doesn't watch out, we predict that Bill Adair will be taking his place at the Cowboy Reunion and all the other rodeos next year.

After the brilliant showing of Gordon Bennett and Gerald Morgan as sports commentators at the Donkey Baseball game, we understand that Ted Husing is about to have his contract cancelled.

The report is that a prominent lawyer (one of the best,) formerly of Hamlin and now of a neighboring city, has been going bare-foot for the past two weeks preparatory to making a trip to Arkansas to try a case. (What big feet you have, grandpa.)

Why has a certain beautiful, blond beauty operator suddenly acquired such a great interest in vocational agriculture?

Birthday greetings of the week go to the charming wife of a prominent druggist (and oil man.) We'll never believe that she's 45!

What attractive business woman

who has her business located in the dry goods department of one of our prominent stores, has a gentleman caller every afternoon between the hours of 1:30 and 3:00?

Who is the well-known hardware dealer, who drives a black V-8, who left town early Sunday morning for parts unknown and didn't return until Monday? What can this mean?

This week's puzzle:—The pastor of the First Baptist Church has several front teeth missing. Who hit the parson?

What handsome blond employee of the Shell Pipe Line Co. is "up a tree" because of a little confusion and misunderstanding about dates and girl friends? (Remember, girls, all that glitters is not Gold.)

Who was the prominent farmer who recently lost his hat in the suction pipe at the gin and is now sporting a new fall creation with a bright red and blue feather?

Will somebody please explain the attraction of the Rule country? We heard that two of our handsome young grocery clerks, one a redhead and the other a brunette, made three trips to that town this week, and they reported a very, verreee-nice time.

Who is the prominent manager of a dry goods store who recently had a wart removed from his face and has to have a Dr. Pepper at 10-2 and 4 to keep his energy up?

It is reported that the popular manager of the Hamlin Cotton Oil Mill and his charming wife have developed an unusual and unique interest in hunting. They were seen one night this week on Lake Drive, attired in sleeping garb, hunting possum.

Personality of the week: A blond groceryman, noted for his turkey-strut walk and his cheerful disposition.

sition. He is one of Hamlin's most aggressive young business men. His chief interest, other than groceries, is sports—especially baseball.

WHEN JOHN BARLEYCORN

DRIVES

John Barleycorn causes a high percentage of our 38,000 annual traffic deaths. A report from the California Department of Motor Vehicles shows a condition that exists in many states. California experienced 2,838 traffic deaths last year. Of course, about 21 per cent involved drivers and pedestrians who were known to have been drinking. It is reasonable to assume that liquor was a factor in a much greater proportion, as it is often impossible to legally prove mild intoxication.

No lethal weapon ever invented by man is more potentially deadly than a mixture of alcohol and gasoline. Medical tests have proven that as little as two or three ounces of liquor will seriously impair a driver's reflexes—even though he may appear to be sober in all respects—and at the same time give him an influx of Dutch courage that results in inexcusable recklessness. By the same token, drinking pedestrians, their senses of caution dimmed, unknowingly take the chances that breed death and injury.

There is no excuse for a driver taking the wheel of his car after drinking. Here is a case where the law must be adamant, and must be exerted ruthlessly, impartially and immediately. It is a notorious fact that in many communities, prosecuting and police officials are lax about the drinker at the wheel, and are only too willing to reduce a charge of drunken driving to the less important charge of recklessness, if a little "pull" is exerted. The sole consequence of such a policy is to make these drivers believe they can get away with it—and they repeat the offense at the first opportunity. Drunken driving can be handled by

Second San Jacinto Battle Involves Time and Concrete

As the San Jacinto Battlefield Memorial near Houston, now three fourths complete, lifts its majestic height into the sky, construction men of the free Texas which it commemorates remember the monument itself as a second winning of the Battle of San Jacinto.

Where Sam Houston's men a century ago fought the soldiers of Mexico for fifteen minutes to win an imperial State, the modern warriors fought time and concrete for eighty-four hours, beginning Monday, Oct. 26, 1936, at 8:27 a. m.

Huge Block of Concrete

To sustain the monument's vast weight of 146,208,000 pounds, a solid block of concrete 124 feet square and fifteen feet thick had to be poured without a halt. If the operation had been stopped in the course of the pouring of the necessary 120 carloads of gravel, eighty carloads of sand and twenty carloads of cement, mixed with 180,000 gallons of water, the concrete would have set and it would have been necessary to blast it away and start again at scratch.

The General in this modern battle against breakdown and the elements was C. A. Bullen, general superintendent for the W. S. Bellows Construction Company, Texas contractor.

Spreading a circus tent over the whole area to guard against possible rain and setting up a double detachment of concrete mixers, General Bullen and his 200 men, working three shifts a day, won the battle.

Five Hundred Feet High

A. C. Finn, architect; Robert J. Cummins, consulting engineer, and F. M. Johnson, project engineer on the job for the PWA, with their many associates and friends, still heave a sigh of relief every time they look at that base.

Faced with Texas stone, the great tower now stands 500 feet and will rise another sixty-four feet on completion, nine feet more than the Washington Monument in the Nation's capital.

GRATEFUL APPRECIATION

Our hearts are deeply thankful for the response of our friends and neighbors in the sad hours of distress when death took from us our dear companion, father, son and brother. Your sympathy, your every act of kindness and attention was truly appreciated by all of us. People were so generous and kind that we wish we could fully express ourselves as we feel it in our hearts.

Mrs. Leslie J. Tindal and baby

J. M. Tindal and family.

Mr. and Mrs. Lee.

CORRECTION:—Last week the Herald had it that Miss Lois Anderson had entered the Woman's College at Denton as a Freshman and as a correction we should have said Lois entered as a Sophomore, after completing her first year at McMurry last year.

Little Miss Ruby Lee Thompson, of Anson, spent the week end with her grandmother, Mrs. Eunice Thompson and her aunts, Misses Ruby and Irene Thompson.

STUDENTS LEAVE

WAR ZONES

Denton, Sept. 16.—From Shanghai, the heart of battle-torn China, will come two sixteen-year old girls to Texas State College for Women this fall. Miss Mary Ellen Kelhofer arrived in this country the early part of the summer, but Miss Alice Bryan is now on her way, traveling alone across the European route.

In writing to the registrar, Miss Bryan's parents expressed the desire that she would be able to adapt herself easily to living conditions and customs over here. She has lived for a time in Japan too, and will therefore probably be able to bring to her fellow students in Texas a cross section view of the warring nationalities. Both students attended the Shanghai American School.

Advance Reservations

Show Increase

DENTON, Sept. 16.—With advance room reservations mounting to 350 more than in the fall of 1936, authorities at Texas State College for Women estimate approximately a 15 per cent increase in the final enrollment figures. The college was ranked last year as the largest residential woman's college in the United States.

Applications for places in T. S. C. W.'s cooperative system, which offers students a chance to do light housekeeping for their room and board, increased from 447 at this time last year to 650. Fees have been received from girls in Canada, France and South America. Matriculation begins Monday, Sept. 21, and classes will be held Thursday.

MISS PURCELL MARRIES

LUBBOCK MAN

Miss Swandhila Purcell, daughter of Mr. and Mrs. H. C. Purcell of Ivanhoe, Texas, and granddaughter of Mrs. C. E. Brewer, of Hamlin, with whom she has been making her home for several years, was married at 9 A. M. Sunday to J. W. Hendryx of Lubbock.

The ceremony was performed by the pastor of the First Methodist Church of Hamlin, Rev. Hanks, at his home on Union Avenue.

The couple left immediately for Lubbock where they will make their home, and where the groom is employed by a Lubbock Plumbing Company as bookkeeper.

Mr. and Mrs. B. Hassen and family spent Sunday in Ranger with Mr. and Mrs. D. Joseph who have recently returned from a trip to Europe.

Mr. and Mrs. Gordon Dunnam, Mrs. W. E. Dunnam, Mrs. Pat Watts and Miss Faye Dunnam visited Mr. and Mrs. Clyde V. Bailey in Winters Sunday.

Miss Opal Cory who is attending McMurry College in Abilene spent the week-end here with her parents, Mr. and Mrs. J. E. Cory.

Mrs. V. Madden visited the Herald Tuesday to have the paper come to their new address at Weslaco, Texas. Mrs. Madden is from McCauley

THE REST OF THE RECORD

BY JAMES V. ALLRED
Governor of Texas

This past week I met with certain members of the Senate committee which has been studying State expenditures. According to some newspaper articles we don't need any new tax money; also, that the Comptroller and Treasurer have said our deficit was only ten million dollars. The State Auditor has fixed it at fifteen million dollars as of September 1st of this year; at approximately twenty million dollars September 1, 1938; and approximately twenty-four million dollars Sept. 1, 1939, if no new taxes were levied.

When I met with members of the Senate committee we had the State Auditor and a representative of the State Comptroller with us. It developed that the Comptroller's figures and the Treasurer's figures were based on an actual deficit at the time but that they were not taking into consideration appropriations and expenditures that have already been made and not yet charged on the books just because the warrants had not been issued for them.

For instance, they hadn't taken into consideration an appropriation of \$821,000.00 for an insane asylum in West Texas. The Board of Control has already located this hospital at Big Spring, where the people voted a bond issue to furnish the land and water supply; and the Board is preparing to let the contract for the building now. Certainly no one could argue that items of this kind are not chargeable against the State for which money should not be raised. At the end of the conference the representatives of the Comptroller's Department agreed with the State Auditor's figures, so there is no actual difference.

Some members of the Senate committee have been quoted as saying that we should cut appropriations down and consolidate departments. I pointed out to them that at the beginning of the Regular Session I recommended department consolidations and stated that I could not recommend increase in appropriations, other than a little over a million dollars for the insane asylums. These recommendations of mine were ignored. Efforts to consolidate certain departments of government were killed in committee, and appropriations were substantially increased without revenues being provided.

The time to cut appropriations was during the Regular Session. The appropriations have now gone into effect. Our schools and colleges, for instance, have acted on these appropriations and entered into contracts with teachers which are binding on the State. The Board of Control has advertised for bids on buildings authorized in these appropriations. Now, it would be manifestly unfair, in fact I think impossible, for the Legislature to make any substantial savings at this late hour. The trouble is if I should submit any of these matters it would prevent passage of revenue measures, which we must have regardless, during the thirty days to which the Legislature is limited.

This past week the State Mineral Board, of which the Governor is Chairman and Judge C. V. Terrell of the Railroad Commission and Land Commissioner McDonald are members, passed a resolution which will result in \$500.00 per day more to the school fund from leases in the Sabine River bed.

These leases were originally made by Governor Sterling, Colonel E. O. Thompson and Land Commissioner J. H. Walker. They provided for a 3-8th royalty to the State from these river bed leases. Later, during Mrs. Ferguson's administration, the price of oil dropped and she, together with Railroad Commissioner Lon A. Smith and Mr. Walker, former Land Commissioner, lowered the royalty from 3-8th to 1-4th. Additional wells were drilled, and there are now 148 wells from which the State receives royalties.

Judge Terrell made a motion to restore the royalty from 1-4th to 3-8th. McDonald and I seconded the motion and it passed unanimously. Judge Terrell and I are quite proud of this additional revenue.

Parent-Teacher Association For Ward School

The Hamlin Parent-Teacher Association was called to meet at the Ward School by the Executive Committee Thursday, Sept. 16. Mrs. W. T. Cherry, president, stated the purpose of the meeting as being that of discussing the needs of the local schools and the advisability of organizing two separate associations.

Mrs. James B. Day, of Rotan, State Chairman of Rural Service and Chairman of Life Membership for the 14th District, represented the Texas Congress, which is an essential factor in organizing a local unit. Mrs. Day gave an inspirational talk and discussed the chief differences in High School and Elementary Associations which are meeting the needs of the different age levels of children.

The results of discussions by local members that the needs of Hamlin schools could best be met by localizing interest and activity in each school was that two associations were organized.

For the Ward School, Mrs. Q. Martin was elected president; Mrs. Mary Farrow, vice president; Mrs. P. E. Mayhew, secretary; Mrs. Ted Bledsoe, treasurer.

For the high school, Mrs. W. T. Cherry was elected president; Mrs. B. M. Brundage, vice president; Mrs. Tom Teague, secretary; Mrs. Tate May, treasurer.

Announcement for activity will be made next week.

Don't mistake your in-laws for out-laws.

HAMLIN F. F. A. WORK IS PROGRESSING

The work of the Hamlin Chapter of the Future Farmers of America is beginning to show signs of good results. All projects that are possible to start this season are well under way. Included in this group of projects is the feeding of animals for fattening purposes which will include seventeen calves, eighteen sheep and thirty-one pigs. All the animals that have been bought up to date are of excellent quality and the club will have good blooded stuff to show in the spring show.

The Farmers and Merchants National Bank and the Hamlin Cotton Oil Mill are cooperating in every way possible with the boys in putting over their projects. The boys wish to express their appreciation to the men in charge of these establishments.

Other projects to be started are baby chick production, hens for egg production, turkey raising, developing lone flock from pullets, raising capons and turkey production, rabbit production, developing dairy beef heifers and bulls, purchasing and developing gilts and young boars, pig production, keeping records on dairy herds, vegetables and rose gardens, cotton production, grain sorghums, small grains and watermelons.

Plans will soon be discussed for the father and son banquet which

will probably be held in November.

The class is greatly interested in conservation of water and soil, and Mr. Templeton states that he will gladly discuss this problem with any one interested.

—Reporter

CATTLE MARKETS ATTRACTIVE FOR SOUTHERN FEEDER

Cheap Feed Will Bring More As Beef, Price Levels Indicate

(This is the fifth of a series of brief, authentic articles on livestock production and feeding, published as a service to farmers and stockmen.)

At current prices, beef cattle offer an unusually profitable market for home grown feed stuffs and such relatively cheap supplements as cottonseed meal and hulls. With feeds at bargain prices, and cattle at 9-year highs, for this time of the year, there is much to encourage Southern feeders.

Quoting from a Chicago market review of September 7th, "Conditions continue to be very unusual in the markets, for the spread in prices between various classes is as wide as at any time in history. The new high of \$18.50 on cattle followed by a ten weeks low on hogs made the second widest spread in those two classes in the history of livestock trading. The range between top cattle and top lambs also was as wide as at any time in history."

Opportunity for South

Under these conditions, there is an unusual opportunity for Southern feeders to use cheap feeds available for fattening cattle. Cottonseed meal and hulls are at least one-third cheaper than a year ago, and

YOU WIN

When you sell, or exchange, your Cottonseed and obtain Cottonseed Meal and Hulls,

are relatively cheaper than many farm grains or other feeds.

While cattle at this time offer the most profitable market for feed-stuffs, the relative cheapness of cottonseed products in comparison with all classes of stock makes the feeding of dairy cows, sheep and hogs attractive also.

Many Good Rations

Cottonseed products can be used in combination with any of the available feeds, such as the grains and hays; or cottonseed meal, or cake, alone, can be used with silage in a beef finishing ration; or cottonseed meal and hulls, alone, are satisfactory for a short cattle feeding period which can be extended materially by the addition of small quantities of good, bright hay.

Your local cotton oil mill has free literature containing practical rations and suggestions for feeding all classes of livestock and, in addition, will be glad to obtain specific feeding information, to help the individual feeder with his particular problems, from the Educational Service, maintained by cotton oil mills of the National Cottonseed Products Association as a service to farmers and stockmen.

Donald Gideon, Manager of the Telephone Company, spent the week-end in Mason.

A. S. Hanes, of Abilene, was here Tuesday on business.

When You Need a Laxative

Thousands of men and women know how wise it is to take Black-Draught at the first signs of constipation. They like the refreshing relief it brings. They know its timely use may save them from feeling badly and possibly losing time at work from sickness brought on by constipation.

If you have to take a laxative occasionally, you can rely on

BLACK-DRAUGHT
A GOOD LAXATIVE

Uncommon Americans

By Elmo Scott Watson

Soldier-Painter

IF YOU think of a painter as an impractical idealist, revise that view before applying it to Charles Willson Peale. Born in Maryland in 1741 he was apprenticed to a saddler at the age of thirteen and was such a good workman that he won his freedom by the time he was twenty. Then he went into business for himself and later formed a partnership with a chaisemaker who promptly absconded with all of the firm's money. To get out of debt Peale next tried clock and watch making and set himself up as a silversmith.

Becoming interested in painting, Peale took lessons from a Swedish-American artist and paid for them with a saddle which he had made. Next he spent two years studying under Copley in Boston and then went to England to learn more from the famous Benjamin West. Returning to this country a few years before the Revolution, he began painting portraits of Colonial celebrities, one of which was destined to make him famous. It was the picture of a young colonel in the Virginia militia named George Washington.

At the outbreak of the Revolution Peale, who was an ardent patriot, organized a company of militia and became a captain. For the next three years he mixed painting and soldiering, winning distinction in both. Next he went into politics and in 1779 and 1780 served as a member of the Pennsylvania assembly.

After the war, Peale gathered together all of the portraits of Revolutionary leaders he had painted—including several of Washington—and started a picture gallery in his home, which was so popular that he had to seek larger quarters. In 1802 he opened the famous Peale museum on the second floor of Independence hall. There he exhibited not only his paintings but also a remarkable collection of natural history specimens he had collected.

At the age of eighty-one Peale turned from portraiture to paint religious pictures. When he died in 1827 he left behind him a collection of 269 portraits and historical scenes as a memorial to one of America's greatest painters and also one of her most versatile geniuses.

REST OF THE RECORD

JAMES V. ALLRED
Governor of Texas

seed

Newspapers during the past week have quoted members of the Committee as predicting that the legislature would block my proposed new taxes unless the appropriations and reorganizations were submitted.

Statements by the senators related to put me in the false position of being opposed to economy in government when just the opposite is true and my record bears

the beginning of the regular session, I submitted the subject of appropriations and recommended the limitation of certain state expenditures in the interest of economy. Not a single thing was done. In written messages to the legislature, I stated definitely that the Board of Control had recommended increases, and certain for salary increase were pending; nor could I approve any, or other, increases until and as the Legislature provided additional taxes to pay them. My recommendations were ignored and appropriations substantially increased to the point as these senators now admit, of being "top-heavy." They would not have been "top-heavy" if my recommendations had been followed.

For the purpose of keeping the record straight, I wrote a friendly letter to Senator Albert Stone which was not intended to criticize him or rebuke him, but merely to point out some of the facts in the controversy that has been started in the newspapers. There are no personal differences between us. In order that the record may be kept straight and the people of Texas may have the facts in this "Rest of the Record," I am quoting the following excerpts from my letter to Senator Stone:

"In the first place, I recommended no increase (in appropriations) except a little more than a million dollars for insane. You voted for 11 increases, either as a member of conference committee or a member of the Senate; one of the biggest increases was in the departmental appropriation bill, for which you voted on May 22nd, as shown at page 2288 of the Senate Journal. Only four senators voted against this bill, and this was the biggest vote cast against any general appropriation bill in the Senate.

"You were a member of the conference committee which recommended the passage of the educational appropriation bill—and 'admittedly top-heavy appropriation'—and you voted for the passage of this bill on May 22nd as shown at page 2308 of the Senate Journal.

"You voted for the passage of the eleemosynary appropriation bill on May 19th, as shown at page 1905 of the Senate Journal.

"But that's not all: There is a further contrasting record for 'economy':

"You voted for Senate Bill 14, which donated \$350,000.00 State taxes to Harris County each year for ten years, a total of \$3,500,000. I vetoed this bill, and you voted to override my veto and give this money to Harris County notwithstanding. Senate Journal, page 910.

"You voted for an \$821,000.00 appropriation for an insane asylum in East Texas. Senate Journal, page 1592. I vetoed this and saved \$821,000.00.

"You voted for House Bill 24, which appropriated and diverted approximately \$1,500,000.00 each year for soil conservation work—and the Legislature did not provide other taxes to take the place of the diversion for which you voted, Senate Journal, pages 1588 and 2134. I vetoed it and saved the taxpayers \$1,500,000.00 per year.

"You voted for the departmental appropriation bill (S. J. 2228), which carried an appropriation of \$750,000.00 for a Big Bend park, and \$250,000.00 for a cotton research laboratory. The Legislature provided no funds to take care of this appropriation, and I saved the taxpayers one million dollars by vetoing it.

"Thus it will be seen that in addition to the 'admittedly top-heavy appropriations,' which you now wish to correct, you voted for a total of almost seven million dollars, which I vetoed. I am wondering if you can point to any such saving that you made for the taxpayers during the regular session? Or to any vote to save the taxpayers that much money? Had it not been for my

Pied Pipers Will Play Colorado Wolves

The Pied Pipers leave at 1 P. M. today for Colorado where they will meet the Colorado Wolves. The game will begin at 8 o'clock and will be the first experience for several boys on the Hamlin team to play under the lights.

Coach Sealey expects to meet another strong team despite the rumors that Colorado has a green team. Any team that can win by a score of 38 to 0 as Colorado did over Stanton last week must be strong.

The Hamlin Coach expects to be able to have a better chance to work his offense than he did against the strong Winters Club. He feels that

with such a chance the Pied Pipers will have a fair chance at victory.

Hamlin was defeated by a score of 19-12 last season by the Wolves.

The probable starting line-up for today's game and the boys who will make the trip to Colorado are as follows: right end, Walraven, right tackle, Morrison, right guard, Sellers, center, Tims, left guard, Prater, left tackle, Freedman, left-end, Pitcock, half back, Carlton, half back, Locke, half back, Scott, full back, Nicholson, substitutes, Dean, Fowler and Carlton, backs, Hudson, Griffin, Treadwell, Dobe and Johnson, line-men.

vetoed, the State would now be about seven million dollars more 'in the hole' as a result of the measures for which you voted.

"I do not personally condemn you for these votes—I simply take the position that it is now the Legislature's duty to raise money to pay the increased appropriations they themselves made.

"You now suggest that I submit the matter of appropriations and reorganization of the government at a special session which can only last thirty days; and after the appropriations have been made for several months and acted upon by the departments, contracts having been let under them.

"I want to appeal to your sense of fairness, Senator, is it reasonable to suppose that, waiving the question as to whether it is equitable to try to work these appropriations over after the departments have acted upon them and contracts have been made, I should submit this subject to a special session, the same Legislature would do something in thirty days that it failed to do during a four months' session?

"In any event, even if you passed any economy measures, which I seriously doubt, could I hope for the passage of necessary tax measures that you failed to pass during a four months' session if the calendar is cluttered with anything other than revenue measures. As Governor, I am firmly convinced that no substantial saving would actually be accomplished.

The Legislature has submitted several constitutional amendments. The people have voted these amendments. No one can deny but what it is my duty as Governor to recommend a revenue program to finance the people's program. Is it reasonable to expect that the Legislature who so recently passed the appropriation by overwhelming votes, would now reverse themselves and substantially reduce the appropriations? I point to the fact that only four senators voted against the general departmental appropriation bill in the regular session. This vote is typical of all other votes on appropriation bills.

Mr. and Mrs. Bob Teagart were called to Levelland, Sunday on account of the death of Mr. Teagart's brother-in-law, Will Johnson.

Mrs. W. C. Russell left Monday for Fort Worth where she will take a 10 weeks course in piano and sacred music in the Baptist Seminary.

(HEALTH NOTES)

Ninety-five out of every 100 school children have decayed teeth, estimates State Health Officer Geo. W. Cox, and the average pre-school child of six years has three or four cavities.

Dr. Cox this week urged Texas parents to have their children's teeth examined now by the family dentist in order that mouth defects might be corrected early and with the least possible ill-health, pain and expense.

"It isn't possible to say definitely how much time is lost in school attendance through tooth troubles and neglected teeth," Dr. Cox said.

"But it is an admitted fact that if every school child could start the school year with teeth free from defects and well cared for the attendance would be materially improved. At the same time, the child would be spared the unnecessary suffering that comes from neglected teeth.

"Individual care of the teeth is of special importance in maintaining mouth health—and incidentally in keeping up the general health. Eating proper food, and a thorough cleansing of the teeth, twice a day, plus gum massage are essential for the preservation of mouth health.

"As a matter of fact, more parents should see to it that their children use their tooth brushes properly," Dr. Cox stated. "The mere fact that a child goes through the motions of brushing his teeth does not mean that his teeth will not decay. Cleanliness, and not mere brushing, is the thing to be emphasized. The proper way to brush the teeth is to brush the upper teeth downward and the lower teeth upward, sweeping across the gum in between the teeth, thereby reaching the areas most susceptible to decay."

And finally, sensible people have formed the habit of going themselves and taking their children to the dentist every six months, whether or not they notice any evidence of trouble. Periodic inspections enable the dentist to detect the beginning of tooth decay, which may be repaired before extensive damage is done. He can forestall threatening gum infections by appropriate treatment, and also, he has an opportunity to give advice about special care which may be indicated.

DONKEY BASEBALL PLAYED FRI. NIGHT

Friday night Hamlin people had the opportunity of seeing that exciting game "Donkey Baseball," when the Hamlin Oilers, composed of local employees of the General Crude Oil Company, played the Hamlin Independents, with a score of 1-1, at the City Ball Park.

A very fair crowd who got their moneys worth in a side splitting jaw stretching show was in the grandstand to cheer for players and donkeys alike. If the players and riders were any sorer than the spectators were from laughing, they were a sore bunch indeed.

Donkey riding was a new experience for some of the boys and it can be truthfully said that some of them are certainly better ball players than they are riders.

Favorite mounts were Sally Rand Sweet Milk, Mae West and Cyclone who seemed to understand the game well and know just what play to make.

Everyone, even those participating seemed to enjoy the game to the fullest.

The gate receipts will be used for Hamlin High School Athletic Club.

Dr. L. S. Magee who has been in the Stamford Sanitarium for two weeks is reported to be improving and will soon be able to return to his home. Dr. Magee is THE pioneer physician of Hamlin and this is the first time he ever allowed anyone to take him to a hospital—nothing serious, glad to state.

J. R. Reynolds was taken to the Stamford Hospital, Tuesday, where he underwent an operation for appendicitis. He is reported to have stood the operation well.

Mr. and Mrs. W. F. Johnson and son, Robert, were in El Paso this week to visit their daughter, Mrs. M. F. Wilson and family.

Parent-Teacher Association For Ward School

The Hamlin Parent-Teacher Association was called to meet at the Ward School by the Executive Committee Thursday, Sept. 16. Mrs. W. T. Cherry, president, stated the purpose of the meeting as being that of discussing the needs of the local schools and the advisability of organizing two separate associations.

Mrs. James B. Day, of Rotan, State Chairman of Rural Service and Chairman of Life Membership for the 14th District, represented the Texas Congress, which is an essential factor in organizing a local unit. Mrs. Day gave an inspirational talk and discussed the chief differences in High School and Elementary Associations which are meeting the needs of the different age levels of children.

The results of discussions by local members that the needs of Hamlin schools could best be met by localizing interest and activity in each school was that two associations were organized.

For the Ward School, Mrs. Q. Martin was elected president; Mrs. Mary Farrow, vice president; Mrs. P. E. Mayhew, secretary; Mrs. Ted Bledsoe, treasurer.

For the high school, Mrs. W. T. Cherry was elected president; Mrs. B. M. Brundage, vice president; Mrs. Tom Teague, secretary; Mrs. Tate May, treasurer.

Announcement for activity will be made next week.

Don't mistake your in-laws for out-laws.

HAMLIN F. F. A. WORK IS PROGRESSING

The work of the Hamlin Chapter of the Future Farmers of America is beginning to show signs of good results. All projects that are possible to start this season are well under way. Included in this group of projects is the feeding of animals for fattening purposes which will include seventeen calves, eighteen sheep and thirty-one pigs. All the animals that have been bought up to date are of excellent quality and the club will have good blooded stuff to show in the spring show.

The Farmers and Merchants National Bank and the Hamlin Cotton Oil Mill are cooperating in every way possible with the boys in putting over their projects. The boys wish to express their appreciation to the men in charge of these establishments.

Other projects to be started are baby chick production, hens for egg production, turkey raising, developing lone flock from pullets, raising capons and turkey production, rabbit production, developing dairy beef heifers and bulls, purchasing and developing gilts and young boars, pig production, keeping records on dairy herds, vegetables and rose gardens, cotton production, grain sorghums, small grains and watermelons.

Plans will soon be discussed for the father and son banquet which

will probably be held in November.

The class is greatly interested in conservation of water and soil, and Mr. Templeton states that he will gladly discuss this problem with any one interested.

—Reporter

CATTLE MARKETS ATTRACTIVE FOR SOUTHERN FEEDER

Cheap Feed Will Bring More As Beef, Price Levels Indicate

(This is the fifth of a series of brief, authentic articles on livestock production and feeding, published as a service to farmers and stockmen.)

At current prices, beef cattle offer an unusually profitable market for home grown feed stuffs and such relatively cheap supplements as cottonseed meal and hulls. With feeds at bargain prices, and cattle at 9-year highs, for this time of the year, there is much to encourage Southern feeders.

Quoting from a Chicago market review of September 7th, "Conditions continue to be very unusual in the markets, for the spread in prices between various classes is as wide as at any time in history. The new high of \$18.50 on cattle followed by a ten weeks low on hogs made the second widest spread in those two classes in the history of livestock trading. The range between top cattle and top lambs also was as wide as at any time in history."

Opportunity for South

Under these conditions, there is an unusual opportunity for Southern feeders to use cheap feeds available for fattening cattle. Cottonseed meal and hulls are at least one-third cheaper than a year ago, and

YOU WIN

When you sell, or exchange, your Cottonseed and obtain Cottonseed Meal and Hulls,

THE REST OF THE RECORD

BY JAMES V. ALLRED
Governor of Texas

The newspapers during the past week have quoted members of the Senate Committee as predicting that the Legislature would block my program for new taxes unless the subjects of appropriations and reorganization are submitted.

Such statements by the senators are calculated to put me in the false position of being opposed to economy in state government when just the opposite is true and my record bears it out.

At the beginning of the regular session, I submitted the subject of appropriations and recommended the reorganization of certain state departments in the interest of economy. Not a single thing was done about it. In written messages to the Legislature, I stated definitely that while the Board of Control had recommended increases, and certain bills for salary increase were pending, I did not join in these recommendations; nor could I approve salary, or other, increases until and unless the Legislature provided additional taxes to pay them. My recommendations were ignored and appropriations substantially increased even to the point as these senators now admit, of being "top-heavy." They would not have been "top-heavy" if my recommendations had been followed.

For the purpose of keeping the record straight, I wrote a friendly letter to Senator Albert Stone which was not intended to criticize him or to rebuke him, but merely to point out some of the facts in the controversy that has been started in the newspapers. There are no personal differences between us. In order that the record may be kept straight and the people of Texas may have the facts in this "Rest of the Record," I am quoting the following excerpts from my letter to Senator Stone:

"In the first place, I recommended no increase (in appropriations) except a little more than a million dollars for insane. You voted for all increases, either as a member of a conference committee or a member of the Senate; one of the biggest increases was in the departmental appropriation bill, for which you voted on May 22nd, as shown at page 2288 of the Senate Journal. Only four senators voted against this bill, and this was the biggest vote cast against any general appropriation bill in the Senate.

"You were a member of the conference committee which recommended the passage of the educational appropriation bill—and admittedly top-heavy appropriation—and you voted for the passage of this bill on May 22nd as shown at page 2308 of the Senate Journal.

"You voted for the passage of the eleemosynary appropriation bill on May 19th, as shown at page 1905 of the Senate Journal.

"But that's not all: There is a further contrasting record for 'economy':

"You voted for Senate Bill 14, which donated \$350,000.00 State taxes to Harris County each year for ten years, a total of \$3,500,000. I vetoed this bill, and you voted to override my veto and give this money to Harris County notwithstanding. Senate Journal, page 910.

"You voted for an \$821,000.00 appropriation for an insane asylum in East Texas. Senate Journal, page 1592. I vetoed this and saved \$821,000.00.

"You voted for House Bill 24, which appropriated and diverted approximately \$1,500,000.00 each year for soil conservation work—and the Legislature did not provide other taxes to take the place of the diversion for which you voted, Senate Journal, pages 1588 and 2134. I vetoed it and saved the taxpayers \$1,500,000.00 per year.

Pied Pipers Will Play Colorado Wolves

The Pied Pipers leave at 1 P. M. today for Colorado where they will meet the Colorado Wolves. The game will begin at 8 o'clock and will be the first experience for several boys on the Hamlin team to play under the lights.

Coach Sealey expects to meet another strong team despite the rumors that Colorado has a green team. Any team that can win by a score of 38 to 0 as Colorado did over Stanton last week must be strong.

The Hamlin Coach expects to be able to have a better chance to work his offense than he did against the strong Winters Club. He feels that

with such a chance the Pied Pipers will have a fair chance at victory.

Hamlin was defeated by a score of 19-12 last season by the Wolves.

The probable starting line-up for today's game and the boys who will make the trip to Colorado are as follows: right end, Walraven, right tackle, Morrison, right guard, Sellers, center, Tims, left guard, Prater, left tackle, Freedman, left-end, Pitcock, half back, Carlton, half back Locke, half back, Scott, full back Nicholson, substitutes, Dean, Fowler and Carlton, backs, Hudson, Griffin, Treadwell, Dobe and Johnson, line-men.

vetoed, the State would now be about seven million dollars more 'in the hole' as a result of the measures for which you voted.

"I do not personally condemn you for these votes—I simply take the position that it is now the Legislature's duty to raise money to pay the increased appropriations they themselves made.

"You now suggest that I submit the matter of appropriations and reorganization of the government at a special session which can only last thirty days; and after the appropriations have been made for several months and acted upon by the departments, contracts having been let under them.

"I want to appeal to your sense of fairness, Senator, is it reasonable to suppose that, waiving the question as to whether it is equitable to try to work these appropriations over after the departments have acted upon them and contracts have been made, I should submit this subject to a special session, the same Legislature would do something in thirty days that it failed to do during a four months' session?

"In any event, even if you passed any economy measures, which I seriously doubt, could I hope for the passage of necessary tax measures that you failed to pass during a four months' session if the calendar is cluttered with anything other than revenue measures. As Governor, I am firmly convinced that no substantial saving would actually be accomplished.

The Legislature has submitted several constitutional amendments. The people have voted these amendments. No one can deny but what it is my duty as Governor to recommend a revenue program to finance the people's program. Is it reasonable to expect that the Legislature who so recently passed the appropriation by overwhelming votes, would now reverse themselves and substantially reduce the appropriations? I point to the fact that only four senators voted against the general departmental appropriation bill in the regular session. This vote is typical of all other votes on appropriation bills.

Mr. and Mrs. Bob Teagart were called to Levelland, Sunday on account of the death of Mr. Teagart's brother-in-law, Will Johnson.

Mrs. W. C. Russell left Monday for Fort Worth where she will take a 10 weeks course in piano and sacred music in the Baptist Seminary.

(HEALTH NOTES)

Ninety-five out of every 100 school children have decayed teeth, estimates State Health Officer Geo. W. Cox, and the average pre-school child of six years has three or four cavities.

Dr. Cox this week urged Texas parents to have their children's teeth examined now by the family dentist in order that mouth defects might be corrected early and with the least possible ill-health, pain and expense.

"It isn't possible to say definitely how much time is lost in school attendance through tooth troubles and neglected teeth," Dr. Cox said. "But it is an admitted fact that if every school child could start the school year with teeth free from defects and well cared for the attendance would be materially improved. At the same time, the child would be spared the unnecessary suffering that comes from neglected teeth.

"Individual care of the teeth is of special importance in maintaining mouth health—and incidentally in keeping up the general health. Eating proper food, and a thorough cleansing of the teeth, twice a day, plus gum massage are essential for the preservation of mouth health.

"As a matter of fact, more parents should see to it that their children use their tooth brushes properly," Dr. Cox stated. "The mere fact that a child goes through the motions of brushing his teeth does not mean that his teeth will not decay. Cleanliness, and not mere brushing, is the thing to be emphasized. The proper way to brush the teeth is to brush the upper teeth downward and the lower teeth upward, sweeping across the gum in between the teeth, thereby reaching the areas most susceptible to decay."

And finally, sensible people have formed the habit of going themselves and taking their children to the dentist every six months, whether or not they notice any evidence of trouble. Periodic inspections enable the dentist to detect the beginning of tooth decay, which may be repaired before extensive damage is done. He can forestall threatening gum infections by appropriate treatment, and also, he has an opportunity to give advice about special care which may be indicated.

DONKEY BASEBALL PLAYED FRI. NIGHT

Friday night Hamlin people had the opportunity of seeing that exciting game "Donkey Baseball," when the Hamlin Oilers, composed of local employees of the General Crude Oil Company, played the Hamlin Independents, with a score of 1-1, at the City Ball Park.

A very fair crowd who got their moneys worth in a side splitting jaw stretching show was in the grandstand to cheer for players and donkeys alike. If the players and riders were any sorer than the spectators were from laughing, they were a sore bunch indeed.

Donkey riding was a new experience for some of the boys and it can be truthfully said that some of them are certainly better ball players than they are riders.

Favorite mounts were Sally Rand Sweet Milk, Mae West and Cyclone who seemed to understand the game well and know just what play to make.

Everyone, even those participating seemed to enjoy the game to the fullest.

The gate receipts will be used for Hamlin High School Athletic Club.

Dr. L. S. Magee who has been in the Stamford Sanitarium for two weeks is reported to be improving and will soon be able to return to his home. Dr. Magee is THE pioneer physician of Hamlin and this is the first time he ever allowed anyone to take him to a hospital—nothing serious, glad to state.

J. R. Reynolds was taken to the Stamford Hospital, Tuesday, where he underwent an operation for appendicitis. He is reported to have stood the operation well.

Mr. and Mrs. W. F. Johnson and son, Robert, were in El Paso this week to visit their daughter, Mrs. M. F. Wilson and family.

W. T. U. COMPANY SPONSORS NEW CONTEST

Believing that West Texans have an opportunity to "cash in" on a national contest, the West Texas Utilities company yesterday invited all Hamlin citizens to participate in a \$40,000 contest on the "electrical standard of living."

The company will cooperate with a national firm in distribution of two grand prizes and 10 prizes each worth \$200 each week for 10 weeks, Mac Brundage, local manager, announced. Entry blanks may be secured at the local office, he said. "All you have to do is write 100 words on why the electrical way of living appeals to you," he said. "Although similar to our recent contest for a new name for women, in which Neotress was chosen as a substitute for housewife, there is no connection."

"In this new contest, the grand prize will be a \$12,000 all-electric home. Second prize is an \$8,000 home. Winners of these two prizes will be chosen from winners of weekly prizes. The contest will last 10 weeks, beginning at once. Both men and women may enter, sending in entries each week."

Entries must be made on the official entry blank, he said, which gives all details and instructions. The entry blank may be obtained by request at the office here.

KNOW TEXAS

By F. L. McDONALD, T. S. C. W.
NEWS BUREAU, DENTON

—Tons of Honey—

First in size and second in sweetness—that's Texas' place, since it ranks second in the United States in the production of honey. In the section around Uvalde from one to two million pounds of honey are brought to market annually. One reason for the successful production of honey in this state is that the climate, with a long summer season, is particularly well adapted. Another factor is the abundance of cotton blossoms, which are better than any other flowers in making honey.

Good Brain—Good Bite

"Most active and intelligent flea in the world" is the title belonging to the West Texas sand flea. Trainers in circuses and side shows in the northern states send messengers all the way down here to get this particular kind of flea, because they say it takes a shorter

time to teach them tricks and they are longer lived. Those who have come in contact with the insect may wish to give it another title—the hardest biter.

Common Clay

Texas clays are used in everything from pottery-making to road-building. Commercial refractory clays are sold for the manufacture of fibre brick, terra cotta, floor tiles and art pottery. Coarser clays yield the common red-pressed bricks, drain tile and earthenware. Two other products are kaolin, utilized in making of fine pottery and earth for the deodorizing of oils. Many of the ordinary clays are used extensively for road-building.

Bigger and Better Bottles

A whole town bottled up—such is the situation in Three Rivers, where over 100,000 bottles are turned out a day. Milk bottles, beverage bottles are a few of the bottled goods produced by the large glass factory located there. The necessary raw products are furnished by a heavy deposits of white, fine grained sand near the town, which is located midway between San Antonio and Corpus Christi.

Tree Publicity Needed

Although the widespread plainlands with their romantic cowboy figures have received more publicity than any other aspect of Texas its wooded areas could well claim their share of the glory. In 1930 the total commercial forest area was 12,624,000 acres, and three state forests in Cherokee, Montgomery, and Newton counties added 5,600 more acres. Principal kinds of wood are yellow pine, oak, red gum and tupelo, but with the state forests as laboratories, experts are now making research toward growing new varieties.

Queer Names and Why

Five towns in Texas have every right to be dirty—their names are Mud, Clay, Earth, Sand and Grit. Among other odd names is that of Round Top, so called because it has an old log house with a round dome situated on a round hill. Origin for one of the most optimistically named towns in the state, Rising Star, has never been discovered. And then there is the town named Floydada by mistake, because some post office employe could not read the handwriting which designated it as Floydalia.

Mrs. J. D. Greenway and son, of Pecos, arrived Tuesday for a visit with her parents, Mr. and Mrs. O. K. Wilson and other relatives.

David Crockett spent the past week-end in Rule with his parents.

SAFEWAY STORES

OPEN SUNDAY MORNING Till Further Notice

LOCAL NEWS FROM FAR AND NEAR

(By TRESSIE BROWN)

Mrs. Agnes Bingham and Lois and Nadine spent Sunday with Len Bingham and family of Sachin.

Mrs. Ava Maynard gave a big birthday dinner Sunday in honor of her brother, S. T. Johnson, of McCamey. Kim folks were guests.

Miss Willie June Miller and brother, Weldon gave a party Saturday night in their home near Swedonia.

Mrs. Jim Johnson, John and Grace and Carl Bingham visited Carl Johnson in McCamey last week. While on their trip they explored the Carlsbad Caverns, and reported many

entertaining sights and facts on their rounds.

Mrs. A. R. Brown who has been visiting for several weeks on the Plains with relatives is back at her home near Plasterco, she is in her late seventies, but anyone wouldn't guess she was near that age. We are happy to welcome her home again and glad to see her so well.

Mrs. T. S. Brown and daughters, Eunice, Tressie and Louann, Mrs. Jim Brown and little daughter, Betty Joan attended a singing at Boyds Chapel, Sunday afternoon. The singing was good and we invite everyone to come next singing day, which will be the third Sunday in October.

Mrs. W. J. Madden, and daughter, Miss Vivian Pearl of McCaulley were visitors at the Herald, Tuesday.

Mrs. L. B. Pribble is seeing to it that her sons—Pribble Bros. Florists at Hobbs New Mexico get the Herald each week. Those Hamlin hustlers will enjoy the "weekly letter."

Dr. J. T. Bynum, Sr. has located himself in a new office—and is so well pleased he said he wouldn't take a million for it. He is on the street level next door to the Brians Insurance Office, at the rear of Inzer Pharmacy. A nice convenient place too.

Too many people dispose of all their problems by saying, "I'll take care of it next week."

Mr. and Mrs. J. L. Bell, of Houston, were guests Tuesday and Wednesday of their niece, Mrs. Clifford Reynolds and family.

Mrs. W. A. Jackson who has been visiting her sister, Mrs. Tom Shelburne returned to her home in Vernon, Sunday. She was accompanied by Delma Shelburne, Arlie Casle, and Misses Kathryn Adkins and Pat Allbritton. While in Vernon Miss Adkins visited her aunt, Mrs. Roy Stine.

Ross Bull, son of Mrs. John Bull, who was taken to the Hendrick Memorial Hospital in Abilene, last week, is reported to be in a very critical condition.

Mrs. Cleve Dunn returned Tuesday of last week from Ruiodosa where she spent the summer as manager and hostess of the group of cabins which she owns.

The fool needs only an opportunity to tell you he is one.
